OBJECTIVE

Full-Stack Developer with experience in MERN stack and mobile development, specializing in building responsive, pixel-perfect, and user-centric applications. Seeking a role to apply expertise in API integration and scalable high-performance solutions.

SKILLS

Languages	Javascript Typescript HTML CSS Python
Frameworks, Libraries & Tools	ReactJS NextJS NodeJS ExpressJS Tailwind CSS SCSS Redux Material UI Firebase Supabase Prisma ORM Figma
Databases	MongoDB PostgreSQL

EXPERIENCE

Penguin Apps	Jan 2025 – Present
Software Developer Intern	<i>Remote</i>

- Integrated new features and resolved bugs in a school management system, enhancing overall usability.
- Contributed to the development of key features for a mobile app, improving functionality and user experience.
- Currently working with a headless CMS to develop a scalable and flexible solution for a new project.

DermaQ	Mar 2024 – Apr 2024
Full-Stack Developer Intern	<i>Remote</i>

- Redesigned a responsive dashboard, improving user experience, enhancing statistics, notifications, and chat UI.
- Managed API integrations for user profiles and dashboard functionalities, ensuring smooth data flow.
- Developed key website components, contributing to a polished and user-friendly interface.

PROJECTS

CoGLider: Developed a React Native app helping developers find the perfect project partner based on skills and proximity. Built a Tinder-like matching interface, real-time chat with Firebase Firestore, and push notifications using Expo for seamless collaboration. ([Try it here](#))

ProJet: Created a platform using the MERN stack, Material UI, and Tailwind CSS for students to showcase and explore projects. Enabled secure authentication and project management. Promotes collaboration and knowledge sharing among students. ([Try it here](#))

FileGlide: Built a user-friendly web platform for quick and secure file sharing. It streamlines the process without requiring login or sign up, allowing instant sharing across public and private devices by entering a shared random bucket code. Widely used by many of my college students. ([Try it here](#))

EDUCATION

Bachelor of Computer Science	Expected 2025
Maharashtra Institute of Technology, Aurangabad	

ACTIVITIES

- Web Dev team lead for [Google Developer Student Club - MITA](#). Developed several websites for the club. Organized and hosted various technical events, promoting learning and innovation within the student community.
